

HARRIS COUNTY WATER CONTROL & IMPROVEMENT DISTRICT NO. 156

CUSTOMER RATES

REVISED: JANUARY 11, 2012

Rates: The following charges for water and sewage collection and disposal are herinafter in effect. The District's water and sewer rates as set forth in this Rate Order include the regulatory assessment the District is required to charge each customer and to pay the Commission.

BI-MONTHLY WATER SERVICE RATE

Residential and Commercial

<u>Gallons</u>	<u>Amount</u>
Minimum 0	\$5.00
0 – 10,000	\$0.50 per 1,000
Above 10,000	\$3.20 per 1,000

BI-MONTHLY SEWER SERVICE RATE

There shall be a \$5 charge each two-month billing period for each customer connected to the District's water system where there is also a connection to the District's sanitary sewer system, regardless of the volume of usage of sewer services, if any, through such connection. In addition, there shall be charged to each connection the base sewer rate of \$2.70 per 1,000 gallons of metered sewage flow. When there is no metered sewage flow, the following return flow factors will be applied to the metered water usage:

Single Family Residential

Metered Water Usage	Percentage of Sewage Return
0 to 20,000 gallons	85%
Next 10,000 gallons	40%
More than 30,000 gallons	25%

Commencement of Service: Water rates and sewer rates will be charged from the time of connection to the District's system. All builders in the District will be responsible for water and sewer charges until such time as notice has been given to the Service Personnel on behalf of the District that service in the name of the builder is to be terminated. If the builder does not notify the District that service is to be terminated and the homeowner has not made application for service, even if the homeowner is living in the house, the builder will be responsible for the bills until such notice is given and application is made. Notice and application must be made at the the office of the Authority at least two days prior to the date service to the builder is to terminate.
